

STANDALONE CAMERA SYSTEM WITH INTEGRATED SOLID STATE DVR

SOLAR HOOD

The optional integrated solar panel makes the system independent of external power supply. Will also charge the batteries. NO battery change required.

CAMERA

Cameras can be set up and updated remotely (no need to unplug the internal SD card to change camera configuration).

MOVEMENT PIR SENSOR

Photo/video/audio capture.
Up to 10m

ADD AN EXTERNAL PIR

100ft - Wireless
40ft - Motion

IP66 WEATHERPROOF HOUSING

With audio vents & ventilation.

SD CARD (Upto 32GB)

Images and videos are stored on an internal memory card so that all processes remain traceable.

BATTERIES

7 weeks standby/operation with rechargeable batteries.
Optional Solar hood supports continuous power.

WITH REMOTE CONTROL

(Can be operated with/without remote control).

TAMPER RESISTANT
