

Datasheet

TRANSMITTERS/ SENSIR - Infrared, Hands-free

Product description

The SENSIR is a high security transmitter with rolling code technology, ideal for general activation of a receiver, generally used as an exit device.

Thanks to its 3V battery it does not require any wiring, making the installation simple and easy.

The SENSIR is an infrared device so a simple wave of the hand will activate the radio signal and let you know the status thanks to its audible feedback.

Key features

- Infrared hands-free transmitter
- 1 channel
- Suited for outdoor installations
- Adjustable detection range
- Audible feedback

 *Certification*

 *DEEE*

 *Certification*

 *IP55*

 *-20°C to 80°C*

Product Information

Frequency: 433.92MHz

Modulation: AM/ASK

Coding: Rolling Code Keeloq®

Transmission range:

200 to 400m in open field

Detection range: 1 to 18cm

Channel: 1

Electrical specifications

Effective transmitting power: 1mW

Supply: 3V (CR123A battery included)
