

Quantec Surveyor2 'IOT' card + 12 months Surveyor2 access

Part No. **QTS2/5**

Overview

- A new secure remote Cloud based data management software solution for C-TEC's Quantec Addressable Call System.
- One QTS2/5 IOT card (pictured) required per Quantec Controller. Once connected, provides 12 months access to our Surveyor2 monitoring service (yearly renewal fee applies, see Order Codes & Pricing tab below).
- Allows detailed reports on all aspects of call system activity to be accessed onsite or offsite via an internet browser.
- Price includes 5 user accounts with full mobile device connectivity.
- User configurable dashboards, Key Performance Indicator settings and remote access capabilities.
- Provides valuable information on call history, busiest shifts, staff response times, busiest rooms and more.
- Ideal for evaluating staff performance, patient demands and determining labour levels/shift patterns.

More Information
