

2.5mm² Single Core Induction Loop Cable

Part No. **LOOP4/W**

Overview

- A 100m reel of white 2.5mm² single core cable.
- Ideal for use as a floor or ceiling 'loop' in audio-frequency induction loop systems.
- To determine the best loop cable for a particular application or room size download our AFILS loop calculator from our Software & Apps page. Guidance on loop cable position can be found in our Guide to Induction Loop Systems available via the Documentation tab below.
- Flat copper foil tape also available for floor loops.
